Dear Florence,

Everything is going fairly well I think. We will start on three times a day milking soon I think. I am glad to do it as I sure want to make a go of this proposition here because it will mean a lot to me in the future I am sure. I think this farm will achieve national recognition after a while. It seems that the selling end is the ^{only} weakness here and Harry says that it is up to us to make good on that point. We started off today selling a bull calf at \$100.00 provided it is O.K. with the Co. Comm.

I want you to send that road map atlas

and books on Diseases of Dairy Cattle
also the last Year Book. You can send
any other books and bulletins that you
think I might need. I need that oil stone
that I used to sharpen my razor.

I want to know about Forward and that
cow. If it has not rained it may be well
to see about the water in the pasture.

I will not get to finish this letter
now as we are ready to go to the
workhouse. I am busy most every minute
of the time. I could loaf a lot but
I am not going to do that. Harry will
stay here at the farm part of the
time so I can go visit some of the
poultry farms.

Lots of love for Geare and Leon and Mother
